

## **COVID Protocol (Policy 5015)**

COVID-19 has elevated the awareness of the importance of infection prevention and control in the school setting. The basics of infection prevention include:

- Staying home (not coming to school or work) when you are ill (seeking medical attention when necessary)
- Cleaning and disinfecting classrooms, materials, and surfaces
- Providing good ventilation and air flow
- Washing hands and using good cough etiquette (using hand sanitizer if water is not available and covering your cough)

While masks may not be required in schools, any individual who wishes to continue to mask, including those who face higher risk from COVID-19, will be supported in that choice.

KTEC High School encourages families to follow the Kenosha County Health Department guidance on COVID-19.
